

BRAZIL'S MODERN ARCHITECTURE

This is the new paperback edition of the most comprehensive survey of twentieth-century Brazilian architecture, analyzed by a new generation of critics and historians. The book covers about 200 buildings and urban designs, presenting key events and projects within a series of thematic chapters. It is extensively illustrated with archival black-and-white and new color photographs as well as drawings and sketches. It offers a fresh reading of Brazil's era of high modernism from the 1930s through the 1960s, placing it in context...
